SUMMARY

Full-stack developer specializing in React and Laravel, with hands-on experience building scalable web and mobile applications. Skilled in integrating RESTful APIs, Firebase services, and AI-powered features using modern machine learning techniques. Proven ability to develop real-world solutions through internships and projects, with a strong focus on performance, clean architecture, and user-centric design.

WORK EXPERIENCE

Full Stack Developer Intern

CoWork X, Multan

Aug 2025 – Dec 2025

- Developed responsive web applications using React and Laravel
- Built and integrated RESTful APIs; customized WordPress themes/plugins
- Designed reusable UI components and optimized MySQL queries
- Debugged applications and improved performance

Tech: React, Laravel, PHP, WordPress, MySQL

IT Support Assistant

Nusrat-ul-Islam

Jan 2025 – April 2025

- Managed student/teacher data and results using SIS application
- Maintained computer lab systems and installed operating systems
- Provided technical support and ensured smooth IT operations

PROJECTS

AI JOB READINESS PLATFORM

Developed an AI-driven job readiness platform featuring interview analysis (live and recorded), ATS-based resume evaluation, and real-time job matching. Implemented transformer-based models for intelligent analysis and built a performance analytics dashboard to track user progress. Designed scalable backend services and optimized APIs for efficient real-time processing and smooth user experience.

E-LEARNER – E-LEARNING MOBILE APP

Built a full-featured React Native e-learning application with authentication, courses, quizzes, flashcards, chat, and progress tracking. Integrated Firebase (Authentication, Firestore, Realtime DB) for real-time data synchronization and secure user management. Focused on performance optimization and reusable UI components to deliver a smooth and engaging user experience.

EDUCATION

Bachelor of Science in Computer Science

Bahauddin Zakariya University Multan

Aug 2022 - Aug 2026

- GPA: 3.86, Relevant Courses: Data Structures, Web Dev, Databases, Software Engineering

SKILLS

Languages	JavaScript (ES6+), PHP, SQL
Frameworks	React.js, Laravel, Bootstrap, React Native
Databases	MySQL, Firebase (Authentication, Firestore / Realtime DB)
Tools & Technologies	Git & GitHub, RESTful API Development & Integration, WordPress (Theme & Plugin Development), Postman, VS Code

CERTIFICATES

Laravel Development – Government of Punjab

Aug 2025

- Completed hands-on training in building web applications using Laravel, covering MVC architecture, REST APIs, and database integration.
